

6th Coal Summit 2016

Conference & Expo

Indian Coal - Sustaining The Momentum

6th & 7th September, 2016

Hotel Le Meridien, New Delhi

Supporters :

Ministry of Coal
Ministry of Power
Ministry of Mines
Ministry of Steel
Ministry of Railway
NITI Aayog

Partner :

Coal India Limited
A Maharatna Company

Organisers :

India Energy Forum

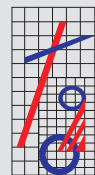

Mining Geological & Metallurgical
Institute of India - Delhi Chapter

Indian School of Mines
Alumna Association - Delhi Chapter

Expo Organiser

TAFCON

INTRODUCTION

For a developing economy like India, assured and affordable supply of Energy is the prime pre-requisite for achieving economic growth and desired level of human development.

In India, it is Coal which is ensuring this since it accounts for almost 55% of country's Commercial Energy needs and more than 70% of Power Generation.

Going forward, Renewables will have a bigger role to play than what they are doing today but Coal is projected to maintain its dominant position for almost next two decades. This also makes sound economic sense since the country is blessed with huge Coal Resources whereas it is rather deficient in other Fossil Fuels like Oil and Gas and development of Renewables is going to take time.

The country has an ambitious goal of ensuring "24 x 7 supply of Power for All" and for achieving this objective, the Coal production programme has been accelerated to 1580 mill tons per annum to be achieved by 2019-20.

It is heartening to note that the spell of stagnation which had crippled the Indian Coal Industry till about two years back has been broken and the Industry has achieved an unprecedented growth rate of 8.4% in 2014-15. More encouragingly, the way things have progressed, it is likely to do one better in the current year by achieving a growth rate of more than 9%.

The Industry has thus covered lot of ground but lots more remains to be done. Need of the day is to take a look at where and how the Industry has reached where it is and chalk out the Roadmap for sustaining the growth momentum that has been generated.

India Energy Forum (IEF), the premier think-tank of the Country on Energy issues together with Mining, Geological and Metallurgical Institute of India (MGMI), Delhi Chapter the oldest organisation of Earth Scientists in India and Indian School of Mines Alumni, Association (ISMAA), Delhi Chapter, has been organising a Biennial Summit on Coal for a decade now. In view of the current situation and on-going developments in the Industry, it is decided to devote the 6th Coal Summit due this year to the theme of "Indian Coal - Sustaining The Momentum". This Summit will be organised on 6th

and 7th the September 2016 at Hotel Le Meridian, New Delhi.

Challenges in Coal Sector are many and so are the obstacles which are varied in nature. The objective of the Summit would be to identify them and take a comprehensive look there at and chalk out strategies to meet them. The entire gamut of Coal Mining activities starting from Exploration and including Mining technologies, improvement in Infrastructural facilities, upgrading of Mining Equipment and facilitation of clearance processes particularly those related to Environment and Forest and Land Acquisition and R&R and most importantly Mine safety will have to be addressed.

Relevant issues to be dwelt upon have been identified as under:

1. Modernising Coal Exploration Technology;
2. Expediting statutory clearances like those related Forest and Environment;
3. Enlisting proactive cooperation of the State Govts in matters of Land Acquisition & R&R;
4. Improvement in Infrastructural facilities particularly Rail connectivity for un-developed/ under developed coalfields;
5. Upgradation of Mining Equipment;
6. Improvement in Underground production with modernisation of Technologies;
7. Impact of volatility in International Coal Prices on Domestic Coal;
8. Development of Captive Coal Blocks;
9. Improving availability of Indigenous Coking Coal;
10. Making Coal Mining and Coal Utilisation more environment friendly with particular emphasis on Coal Beneficiation.
11. Coal Demand Side Management.

Successful organisation of an Event of this nature and magnitude will require the active support of all the stakeholders in Coal Sector like Coal Producers, Coal Consumers, Regulatory Authorities in general and that of Ministry of Coal, Ministry of Power, Ministry of Environment and Forests, Ministry of Steel, Indian Railways, concerned State Governments in particular. This support has already been sought and assured.

ORGANISERS

India Energy Forum

The Forum is a unique NGO, which promotes energy sector as a whole. Most major players in Power, Oil & Gas, Coal and Renewable are our members. These include NTPC, NHPC, Power Grid Corpn., Power Finance Corpn., PTC, Tata Power, ALSTOM, ONGC, IOCL, CIL, Neyveli Lignite Corporation, Vestas RRB, JP Group, Bhilwara Group and about 90 eminent energy experts. In addition, it has MOUs with leading regional chambers and specialized organizations including Bombay Chamber, Bengal Chamber, Bangalore Chamber, Madras Chamber, PHD Chamber, Observer Research Foundation, IRADE, INWEA, MGMI-DC, ISMAA-DC, PETROTECH, PETROFED and work closely with them.

The Mining Geological & Metallurgical Institute of India (MGMI), Delhi Chapter

MGMI is one of the oldest professional Institutes of its kind in Asia having being founded in 1906. It has been organizing conferences and seminars on issues impacting the mineral sciences. MGMI is a unique, independent, non-profit organization and represents professionals of the mineral sector as a whole. It is manned by highly qualified and experienced mining engineers, geologists and metallurgists and energy experts.

Indian School of Mines Alumni Association (ISMAA)-Delhi Chapter

The ISM Alumni Association continues to provide yeoman service to the mineral industry in India as well as abroad with complete dedication and commitment to the mineral industry. In appreciation of the fact that the prime pre-requisite for industrialisation in India will be a sound Mineral Sector, Govt of India way back in 1926 set-up a world class Mining Institution at Dhanbad which was named Indian School of Mines and Applied Geology. This was formally inaugurated by his Excellency Lord Erwin the then Viceroy on 9th December 1926. Now named as Indian School of Mines, it has become a full-fledged University and the Captains of Indian mineral Industry take pride in calling themselves the Alumni of this world class Institution. ISM Alumni Association works as a think tank for Mineral Industry in India and coordinates with ISM Alumni abroad for updating and upgrading mineral science in the country.

SUMMIT AND EXPO

The proposed Summit provide an ideal forum for Mine Operators, planners and policy makers to discuss the various issues affecting the coal mining and allied industries across the globe.

The Summit will be a unique platform for Entrepreneurs, Decision Makers, Senior Government Officials, Investors, Industry Members, Traders, Equipment Buyers & Suppliers, Academia, Miners, Engineers and Trade Delegations to congregate,

brainstorm, showcase and forge meaningful partnerships for business development.

Concurrent with the 6th Coal Summit 2016, an International Expo - Coal Summit Expo (CSE) 2016 is being organized by TAFCON under the aegis of the Organisers at Pragati Maidan, New Delhi.

The Expo will provide an excellent business opportunity for coal mining and allied industries to showcase their new initiatives, technologies, products and services to the global audience.

PARTICIPANTS

- Project Developers (Public & Private)
- Coal Producers (Public & Private)
- Coal Consumers
- Govt. Policy Makers - Central and State Govts.
- Research scholars
- Academicians
- Equipment Suppliers
- Fuel Suppliers
- Bankers and Financial Institutions
- Legal and Management Consultants
- Other Intellectuals

REGISTRATION

Registration Fee for the Summit will be :-

Delegate	Rs. 15000/- each
Two or more delegates from the same organization	Rs. 12,000/- each
Foreign delegate	US\$ 320 each
Two or more foreign delegates from same organization	US\$ 250 each
Students (Limited Seats)	Rs. 1000/- each

Co-ordinators

- Mr. N.N. Gautam
- Dr. M.M. Seam
- Mr. S.K. Grover

Conference Secretariat, India Energy Forum
408, PHD House, 4/2 Siri Institutional Area,
August Kranti Marg, New Delhi - 110016
Tel. : +91-11-41021422, 41021423
E-mail : coalsummits@gmail.com

Contact Persons for Exhibition

- Mr. P.R. Mandel
- Mr. I.P. Wadhwa
- Mr Rakesh Kothari

For Expo Details, enquiries :

TAFCON Projects (India) Pvt. Ltd.
705, New Delhi House, 27, Barakhamba Road, New Delhi - 110001
Tel : +91-11-49857777 (50 lines) Fax : +91-11-49857778
E-mail : cse@tafcon.com Web : www.tafcon.com

Cheque/DD will be made in favour of "India Energy Forum - The Coal Summit" payable at New Delhi.

ADVERTISEMENTS

A Compendium of Papers is being brought out which will provide a comprehensive profile of the Indian Coal Industry. It will contain articles on relevant issues and conference papers. Some pages of the compendium are earmarked for advertisements. You can avail of these advertisement opportunities.

The advertisement tariffs and other details are :

Advertisement	Tariff
Back Cover	Rs. 70,000/-
Inside Front Cover	Rs. 50,000/-
Inside Back Cover	Rs. 40,000/-
Content Facing Page	Rs. 35,000/-
Section Divider	Rs. 30,000/-
Full Page (Colour)	Rs. 25,000/-

Advertisement Material : High Resolution CDR and PDF file by email or in CD.

Publication Size will be A4.

TENTATIVE PROGRAMME

Day-1 : 6th September 2016	
0830 - 0930 hrs	Registration
0930 - 1030 hrs	Inaugural Session
1045 - 1730 hrs	Technical Sessions
Day-2 : 7th September 2016	
0930 - 1600 hrs	Technical Sessions
1630 - 1730 hrs	Valedictory Session
